

## From The Inside Outside (Official Lyrics)

It's a dark night today  
Feels like the sun keeps getting further away  
Has the earth lost its way?  
Or maybe nothing has changed  
Got the blindfolds on  
All the lines are drawn  
Got the bricks to block our view  
Now our backs are turned  
Nothing left to learn  
How do we get through?

There's a light within  
It's been there all along  
There's a light within  
Just got to turn it on

**From the inside outside  
We can make it shine  
Like a beacon burning through the night  
From the inside outside  
Shining in our eyes  
It's a beauty we should never hide  
From the inside outside  
From the inside outside**

Inside, outside

On a dark lonely road  
As I ride on I feel the wind chill my bones  
While I breathe with the beat  
The rhythm's under my feet  
When the twilight fades  
I can see my way  
If I just keep moving on  
Cause the dynamo's  
In my heart and soul  
It will lead me home

There's a light within  
It's been there all along  
There's a light within  
Just got to turn it on

**From the inside outside  
We can make it shine  
Like a beacon burning through the night  
From the inside outside  
Shining in our eyes  
It's a beauty we should never hide**

**From the inside outside  
From the inside outside**

We are stars  
Blazing through the universe  
We're an endless constellation  
Here on earth

Inside, outside  
Inside, outside

From the inside outside  
We can make it shine  
Like a beacon burning through the night  
From the inside outside  
Shining in our eyes  
It's a beauty we should never hide  
It's in you, it's in me  
It's the gift we can be  
It's what keeps us all alive
