

## I've Got Hope (Official Lyrics)

In the heart of a mother fighting for her child  
In the gaze of a migrant out at sea  
In the girl whose poverty can't steal her smile  
In the tears of a friend who cries with me  
There's a ray of light that knows  
The frozen earth will awaken  
It says: I believe the springtime will come

'Cause I've got hope, hope  
oh, oh, I've got hope  
It's a light that'll never die  
I've got hope, hope  
oh, oh, I've got hope  
I won't give in, won't give up the fight

Every seed has the power within to make it grow  
In every death there's a promise of new life  
There's a longing in our hearts to reach our home  
For a star to guide us through the night

In the darkness is the light  
And in the stillness the dancing  
If I keep believing when I can't see

'Cause I've got hope ...

I won't surrender to the darkness  
I will stand my ground and believe  
My own worst enemy is inside me  
If I trust in Love I will be free  
No, I won't be afraid to dream  
Dream of all the things I know life can be

'Cause I've got hope, hope  
oh, oh, I've got hope  
It's a light that'll never die  
I've got hope, hope  
oh, oh, I've got hope  
I won't give in, won't give up

I won't surrender to the darkness  
I will stand my ground and believe  
My own worst enemy is inside me  
If I trust in Love I will be free

'Cause I've got hope, hope  
I've got hope, hope
