

On The Other Side (Official Lyrics)

We look from distant shores
To the other side
Baffled by worlds unknown
That the others hide
Different by race and creed
Leading separate lives
If we don't heal the wounds
How can we survive?

What if I put myself
On the other side?
What if I take your pain
And I make it mine?
I know I can't hurt you
Without hurting myself
In everything I do
I will sing

**No one is a stranger to me
No one is a stranger to me
I see my own face reflected in you
What I wish for myself
is my wish for you too
And I'll find myself when I
Walk in your shoes**

*Oh, oh...
On the other side*

If we walk side by side
We will carry on
Where there's a bridge to build
Is where we belong
Where there's a stumbling block
We shall move beyond
Till the whole world will join
In this song:

**No one is a stranger to me
No one is a stranger to me
I see my own face reflected in you
What I wish for myself
is my wish for you too
And I'll find myself when I
Walk in your shoes**

All your joys
Are mine too *On the other side*
All your pain
Is mine too *On the other side*
All you need
I need too *On the other side*
All you dream
I dream too *On the other side*

And I'll walk until I find
All the world is mine

**No one is a stranger to me
No one is a stranger to me
I see my own face reflected in you
What I wish for myself
is my wish for you too
And I'll find myself when I
Walk in your shoes**

**No one is a stranger to me
No one is a stranger to me**
